Honors-Awards

Student of the Year(Class Rank 1)

Vishal Waikar

Senior Full-Stack Developer @Insight Business Applications |
Master's in Advanced Computer Science - Loughborough
University | United Kingdom
Leicester, England, United Kingdom

Summary

Grounded and solution-oriented professional with a variety of professional experience in India and the United Kingdom. Frontend-Focused Full-Stack Developer with 4+ years of experience building scalable, high-availability applications across Travel, healthcare, and enterprise domains. Highly skilled in Java (Spring Boot, Hibernate) and modern front-end technologies including React, Angular, Next.js, and TypeScript.

Demonstrated expertise in developing RESTful APIs, implementing microservice architectures. Proven track record in applying test-driven development, agile practices, and peer reviews to deliver secure, performant, and maintainable solutions. Strong communicator and problem-solver, with a commitment to quality, collaboration, and continuous improvement in distributed team environments.

Experience

Senior Full Stack Developer | Insight Business Applications Ltd
(Kotlin/Java | PHP/YII | React/NextJs)
May 2024 - Till Now - **Bristol (Remote)**

- Engineered and maintained Android Application using Java, Kotlin and enterprise-grade web applications Using React, NextJs with a focus on modular, scalable architecture for high-volume user platforms.
- Built RESTful APIs and backend services using PHP/YII, integrating seamlessly with MySQL databases and microservices infrastructure.
- Led efforts to improve authentication and security, implementing Two-Factor Authentication (2FA) via Twilio and optimizing user access flows.
- Collaborated daily in a distributed agile team, participating in design reviews, sprint planning, and code reviews, while maintaining clear version control through Git.
- Conducted performance tuning of key UI components, reducing page latency and improving responsiveness across browsers and devices.
- Advocated for accessibility and responsive design, ensuring features were intuitive and inclusive for a wide range of user scenarios

Full-Stack Developer | Bizmatics: Harris Computer

(React | Java | NextJs)

March 2019 - August 2022 (3 years 5 months) - Mumbai, India

- Built and maintained full-stack web applications using Spring Boot and React, achieving 95.2% uptime for customer-facing portals.
- Developed responsive, interactive UI components with React and Next.js, incorporating server-side rendering and dynamic routing to improve SEO and load performance.
- Designed and integrated RESTful APIs to handle secure payment transactions via Braintree, PayPal, and Stripe, ensuring robust system communication.
- Secured web applications with Spring Security, implementing role-based access control and OAuth2 integrations.
- Collaborated with designers and QA to translate wireframes into pixel-perfect interfaces with strong cross-browser compatibility.
- Led troubleshooting and root cause analysis of complex production issues, significantly reducing support tickets and ensuring consistent system stability.
- Mentored junior engineers on front-end frameworks, Java, and SQL, contributing to team skill growth and onboarding efficiency.
- Participated actively in Agile ceremonies, providing clear status updates and cross-functional collaboration with stakeholders to meet sprint goals.

Skills

Frontend - Next.js (SSR/CSR), React.js, Angular, TypeScript, JavaScript, HTML5, CSS3, jQuery, Canvas, SVG, Redux, Responsive UI Design, REST API Integration.

Backend - Java, Kotlin, PHP, Spring Boot, Hibernate, Microservices Architecture, RESTful Services, High Availability Systems.

Database - MySQL, SQL, Firebase, Database Management, GraphQL.

Tools & Practices - Git (GitHub, GitLab), Maven, CI/CD, Agile Methodologies, Test-Driven Development (TDD), Twilio, Version Control, Cross-functional Collaboration, Communication, Mentorship, Problem Solving.

Education

Master's degree, Advanced Computer Science | Loughborough University (2022 - 2023) , UK
